

## Questions and Answers

CONTRACT NO. 4400002849

Retainer Contract for Intelligent Transportation  
Systems (ITS) Statewide System Design, Intergration  
and System Verification Services  
Statewide

1. Personnel Requirement 4b – Does the licensed PE for Information Systems (IS) and Network/Communications designer need to be licensed in LA? Since most IS / Network designers are not PE's, can experience be substituted for this requirement?

**ANSWER – No, the license does not need to be from LA. Experience cannot be substituted for this requirement.**

2. Personnel Requirement 4f – Please elaborate on the marketing requirements sought by DOTD. Are these marketing requirements for public outreach, sponsorships, or other needs? Please provide the specific needs DOTD are requiring in a marketing person.

**ANSWER – DOTD needs someone with marketing experience to develop and implement marketing strategies to more effectively advertise the various services provided by the ITS Section to both internal DOTD personnel and also the general public, and assist in the development of sponsorship programs for the services provided to the public.**

3. Personnel Requirement - On page 6, can one person satisfy the requirements listed under parts 2 (as one of the two engineers required) as well as the 4a requirement?

**ANSWER – Yes, one person can satisfy the requirement listed under 2 and 4a.**
